

IBM Quantum Qiskit Workshop Pre-work assignment

Please follow below Pre-work assignment to conduct an effective on-site Qiskit Workshop. After the workshop, we recommend going through Optional assignments.

Pre-work assignment

Foundations of quantum computing - Qiskit Global Summer School

- [The Evolution and the Future of IBM Quantum hardware](#) 🕒 1 hour
- [Foundations of Quantum Mechanics](#) 🕒 1 hour
- [Basics of Quantum Information](#) 🕒 1 hour

Optional

Lecture

- [Quantum Circuit Compilation with Qiskit](#) 🕒 1 hour
- [Introduction to Quantum Simulation](#) 🕒 1 hour
- [A deep dive into Sample-Based Quantum Diagonalization Methods](#) 🕒 1 hour
- [Low-overhead Error Detection with Spacetime Codes](#) 🕒 1 hour

Tutorial Notebook

- [Understanding Hardware Noise and how to use Qiskit](#) 🕒 3 hours
- [New Tool For Quantum Advantage](#) 🕒 3 hours
